## Fee Determination Scorecard

### Significant Accomplishments

- Continued complex demolition efforts at the Navy prototype propulsion plants and at the Accelerated Retrieval Project facilities safely and within cost and schedule
- Met Site Treatment Plan milestones and continued to maintain excellent relationships with regulators
- Transuranic shipping volume was greatest this year than in each of the past 11 years
- Contractor continues to adapt well to changing conditions and issues; effective at resolving problems; effective partnering with DOE, stakeholders, regulators, Naval Reactors and the INL
- On track to meet two EM priority milestones this calendar year for ARP demolition and IWTU processing volume
