 - (D) Amount of the total annual available fee that is allocated to the evaluation period, including the allocation for subjective award fee criteria and objective award fee criteria.
 - (E) Methodology for application of subjective evaluation ratings or attainment of predetermined objectives to earned fee.
 - (F) Use of rollover of unearned fee is prohibited.
- (ii) The length of evaluation periods will align to the 12-month Government fiscal year (FY). The evaluation periods should provide a balance between the Contractor's ability to have sufficient performance time for the Government to evaluate, but evaluation periods should provide the ability for the Government to provide timely evaluations on the Contractor's performance without being administratively burdensome.
- (5) Fee Determination. Fee decisions are made solely at the discretion of the Government, including but not limited to, the characterization of the Contractor's performance, amount of earned fee, if any, and the methodology used to calculate the earned fee.
- (6) Unsatisfactory Performance. In accordance with FAR 16.401, award fee shall not be earned if the contractor's overall cost, schedule, and technical performance in the aggregate is below satisfactory. The basis for all award-fee determinations shall be documented in the contract file to include, at a minimum, a determination that overall cost, schedule and technical performance in the aggregate is or is not at a satisfactory level. This determination and the methodology for determining the award fee are unilateral decisions made solely at the discretion of the Government.
- (7) Total Available Fee Distribution. Table B-4 delineates the Total Available Award Fee Distribution as fee allocations, contract definitization, and final fee determinations are made for each fiscal year.

(8) Task Order 3.2 Description:

Task Order 3.2, Integration and Mission Continuity (IMC), includes uninterrupted operations of work scope identified in Section C, while both parties work towards the development of individual End States. Timing for preparation of the End State subtasks will be dependent on the DOE's priority for the work scope, and End State subtasks will be developed and sequenced collaboratively as defined in the most current Ten-Year End State Strategic Task Order Plan.

As the End State subtasks are developed, negotiated, and implemented, Task Order 3.2, IMC, will continue to house the core programs that maintain a comprehensive and effective continuity capability across ICP projects to support achievement of defined End States. Task Order 3.2 scope shall be performed in accordance with the Section C PWS sections of the Master IDIQ Contract, identified below. Costs are reimbursed based on allowable actual costs billed to the Task Order 3.2.

B.4 DOE-B-2013 Obligation of Funds (Oct 2014)

- (a) Pursuant to the clause of this contract in FAR 52.232-22, *Limitation of Funds*, total funds in the amount(s) of \$(*see current funding modification and accompanying detailed funding profile*) are obligated for the payment of allowable costs.

Obligated funding shall only be used for the specific subtasks as designated in the Hybrid Task Order and shall not be used for any other subtask.

B.13 Performance Management Incentive

The Performance Management Incentive (PMI) fee is \$2M for FY24 and \$2M for FY25. The PMI is a contract-wide incentive available among all active subtasks (Task Orders). PMI measures performance of all active subtasks collectively, exclusive of the PEMP.

Section C - Performance Work Statement

C.1 Task Order Requirements

The Contractor shall perform the following sections of the Performance Work Statement (PWS) of the Master IDIQ Contract

- C.3.0 EM Facility Infrastructure (including sub parts)
- C.4.0 CERCLA [Comprehensive Environmental Response Compensation and Liability Act] Remediation (including sub parts)
- C.5.0 Waste Management (including sub parts)
- C.6.0 Liquid Waste Facility Closure (including sub parts except for C.6.1 Integrated Waste Treatment Unit (IWTU) Operations)
- C.7.0 Spent Nuclear Fuel Management (including sub parts except for C.7.2 Non-Defense)
- C.8.0 Facility Demolition and Dismantlement (D&D)
- C.9.0 Program Management and Support Functions (including sub parts)

In accordance with contract clause C.9.2.01.01 *Project Support Performance Requirements*, the Contractor shall prepare a Fiscal Year Work Plans (FYWP) that includes narrative descriptions of the upcoming fiscal year, monthly spend plans and monthly metrics expected to be achieved. The FYWP shall be provided for DOE review for the upcoming fiscal year by September 30. In addition to this annual requirement, the Contractor shall, as requested, provide an updated FYWP that reflects updated projected funding for the fiscal year, actuals costs to date and a current estimate at completion. The Contractor is expected to coordinate with DOE to collaboratively manage funds while executing the performance work statement.

Due to funding constraints expected for FY24 and FY25, not all of the scope identified above falls within these funding levels; therefore, specific scope elements within Task Order 3.2 contain priced work to accommodate the influx of additional funding either through Contractor efficiencies or incremental funding. Subject to the availability of funding, this work may be added to Task Order 3.2. While this priced work is included in the PWS, it is not part of the estimated cost or fee until the specific work scope(s) is authorized. This methodology allows for work to begin immediately if funds become available either through Contractor efficiencies or incremental funding and mitigates the need to issue unpriced work, which reduces the risk to the Government.

Based on evaluation of DOE priorities and through Contractor efficiencies and/or an increase in available funding, DOE ICP may authorize the performance of a negotiated priced work during Task Order 3.2 period of performance through a bilateral task order modification. Modification authority is in accordance with FAR 52.243-2, *Changes - Cost Reimbursement (Aug 1987) Alt I, II and III* and FAR 52.232-22, *Limitation of Funds*. The Contractor shall partner with the DOE to mutually agree to any changes in the negotiated priced work (e.g., appropriate escalation applied, adjustment in scope and price if the schedule falls outside of the proposed period of performance, etc.). Refer to Exhibit B-1 for a complete list of

EXHIBIT B-1**ANTICIPATED PRICED WORK**

Exhibit B-1 is a list of anticipated priced work that may be added to Task Order 3.2 subject to the availability of funding. While this priced work is included in the Performance Work Statement, it is not part of the estimated cost or fee until the specific work scope(s) is authorized through a bilateral modification. Based on evaluation of Department of Energy (DOE) priorities and through Contractor efficiencies and/or an increase in available funding, DOE Idaho Cleanup Project (ICP) may authorize the performance of a negotiated priced work during Task Order 3.2 period of performance through a bilateral task order modification. The Contractor shall partner with the DOE to mutually agree to any changes in the negotiated priced work (e.g., appropriate escalation applied, adjustment in scope and price if the schedule falls outside of the proposed period of performance, etc.) and associated fee.
