INFORMATION PAGES MODIFICATIONS

The purpose of this modification is to incorporate the following modifications:

1. **Section I *Contract Clauses***

   - Clause I.44, DEAR 970.5234-4, *Obligation of Funds (Dec 2000)*, Section C, is modified to waive Idaho National Laboratory's 10 day written notification requirement for insufficient funds during periods of Continuing Resolution. Section C now reads as follows:

     "*Notices-Contractor Excused from Further Performance. The Contractor shall notify DOE in writing whenever the unexpended balance of available funds (including collections available under paragraph (a) of this clause), plus the Contractor's best estimate of collections to be received and available during the 10 day period hereinafter specified, is in the Contractor's best judgment sufficient to continue contract operations at the programmed rate for only 10 days and to cover the Contractor's unpaid fee and any negotiated fixed amounts, and outstanding encumbrances and liabilities on account of costs allowable under the contract at the end of such period. During periods in which the federal government is operating under a Continuing Resolution, the requirement for 10 day written notification of insufficient funds is waived. Whenever the unexpended balance of available funds (including collections available under paragraph (a) of this clause), less the amount of the Contractor's fee then earned but not paid and any negotiated fixed amounts, is in the Contractor's best judgment sufficient only to liquidate outstanding encumbrances and liabilities on account of costs allowable under this contract, the Contractor shall immediately notify DOE and shall make no further encumbrances or expenditures (except to liquidate existing encumbrances and liabilities), and, unless the parties otherwise agree, the Contractor shall be excused from further performance (except such performance as may become necessary in connection with termination by the Government) and the performance of all work hereunder will be deemed to have been terminated for the convenience of the Government in accordance with the provisions of the Termination clause of this contract. Financial Plans; Cost and Encumbrance Limitations. In addition to the limitations provided for elsewhere in this contract, DOE may, through financial plans, such as Approved Funding Programs, or other directives issued to the Contractor, establish controls on the costs to be incurred and encumbrances to be made in the performance of the contract work. Such plans and directives may*

be amended or supplemented from time to time by DOE. The Contractor agrees

(1) *To comply with the specific limitations (ceilings) on costs and encumbrances set forth in such plans and directives;*

(2) *To comply with other requirements of such plans and directives; and*

To notify DOE promptly, in writing, whenever it has reason to believe that any limitation on costs and encumbrances will be exceeded or substantially underrun."

2. **Section J, Attachment G *List of Applicable DOE Directives (List B),*** is modified to implement the following items:

The following Directives are being updated in List B based on consensus per Joint Directives Review Board on August 13, 2026.

- DOE O 142.3B, Chg. 1 is being replaced with DOE O 142.3C with an implementation footnote, as follows:

Directive No.	Mod No. and Effective Date	Directive Title
O 142.3C	Mod 641 Aug 2026	**Unclassified Foreign National Access Program** ***Note*** *– Implementation to be completed by September 30, 2027.*
