

PART III - SECTION J, ATTACHMENT G

**LIST OF APPLICABLE DOE DIRECTIVES
(LIST B)**

The following DOE directives contain requirements relevant to the scope of work under the Idaho National Laboratory (INL) contract. In most cases, the requirements applicable to the Contractor are contained in a Contractor Requirements Document (CRD) attached to the DOE directive. The Contractor shall continuously evaluate the workscope and contract requirements for opportunities to improve efficiency or creativity. In support of that objective, Section H, clause H.5 defines a process by which the Contractor may propose alternative methods to the DOE directives listed in this section.

Note: Directives with an asterisk (*) contain an exemption. The details of the exemption can be found in the table located below the directives table. Additionally, all Directives below are DOE unless otherwise specified, for example: Nuclear Energy (NE).

⁴ The Parties agree that Contractor is not responsible for compliance to 1(a), 2(d), 2(g) and/or 2(j) of DOE O 206.1A until all requirements therein are finalized and released by the Department of Energy. Such compliance will be in accordance with a timeline and cost as negotiated and mutually agreed upon by the Parties following the aforementioned finalization.
