Small Business Subcontracting Goal Percentages

This small business subcontracting plan, together with any attachments, is submitted to satisfy the applicable requirements of Public Law 95-507, FAR Clause 52.219-9, entitled “Small Business Subcontracting Plan,” and FAR guidance found at 19.704, Subcontracting Plan Requirements.

1. **(Refer to FAR 52.219-9(d)(1)).** Idaho Environmental Coalition, LLC, (IEC) identifies small business subcontracting commitments at the Task Order level associated with the contract awarded under the solicitation cited above. Percentages, as stated in ICP Contract Section H.51, are committed in the following six categories as aligned to Task Order scope. These goals are contingent on the contract providing subcontracting opportunities.
 - i. **Small Business Concerns:** Subcontractors who are small business concerns (Alaska Native Corporations [ANCs] or Indian tribes shall be counted toward the subcontracting goals for small business concerns, regardless of the size or Small Business Association [SBA] certification status of the ANC or Indian tribe)
 - 49% of total planned subcontracting dollars
 - ii. **Veteran-Owned Small Business Concerns:** Veteran-owned small business concerns will be reported as a subset of small business concerns.
 - 3% of total planned subcontracting dollars
 - iii. **Service-Disabled Veteran-Owned Small Business Concerns:** Service-disabled veteran-owned small business concerns will be reported as a subset of veteran-owned small business concerns and small business concerns.
 - 4% of total planned subcontracting dollars
 - iv. **Historically Underutilized Business Zone (HUBZone) Small Business Concerns:** HUBZone small business concerns will be reported as a subset of small business concerns.
 - 3% of total planned subcontracting dollars
 - v. **Small Disadvantaged Business Concerns:** Subcontractors who are small business concerns owned and controlled by socially and economically disadvantaged individuals (ANCs or Indian tribes shall be counted toward the subcontracting goals for small disadvantaged business concerns, regardless of the size or SBA certification status of the ANCs or Indian tribes) will be reported as a subset of small business concerns.
 - 6% of total planned subcontracting dollars
 - vi. **Women-Owned Small Business Concerns:** Women-owned small business concerns will be reported as a subset of small business concerns.
 - 5% of total planned subcontracting dollars

Subcontract Work

2. H.52 of the ICP Contract requires that at least 15% of the cumulative contract value of the task awarded to IEC be awarded to small businesses. IEC estimates that approximately \$575 to \$600 million will be subcontracted to small businesses. This notional value is based upon establishing a small business subcontracting pool at 15% of the funding profile for the 10

years beginning FY22 through FY31. For purposes of this plan, cumulative contract value shall mean the value of all awarded task orders and associated modifications less the value of fee, pension costs, mandatory services purchased under the ICP Contract, facility leases and associated utilities, GSA vehicle leases, funding adjustments for incumbent paid leave and other prior contractor liabilities assumed by IEC, residual negative cost variances remaining after task order completion or other similar type costs where IEC has no meaningful discretion in its ability to subcontract. A similar definition shall apply as appropriate to the individual task order “Contract Value” as set forth and used in Attachment 1.

The actual award of small business subcontracts will occur through the task order process. Individual goals for small business subcontracting dollars will be identified in each task and will in accordance with Section H.51 of the ICP Contract equal at least 49% of the value of all the subcontracted work projected for that individual task. IEC will award small business subcontracting dollars corresponding to the percentage goals shown in paragraphs 1(ii) to (vi) above. As part of Task Order negotiations, IEC will record the Task Order dollar value and cumulative dollar value for each small business category. Small Business goals will be listed for each Task Order in the format shown in Exhibit 1-7(A):

Exhibit 1-7(A). Total Estimated Subcontracting Dollars		
Small Business Category	Small Business Goals	Small Business Dollars
Small Business	49%	\$xxM
Veteran-Owned Small Business (VOSB)	3%	\$xxM
Service-Disabled Veteran Owned Small Business (SDVOSB)	4%	\$xxM
Historically Under-Utilized Business Zone (HUBZone)	3%	\$xxM
Small Disadvantaged Business (SDB)	6%	\$xxM
Woman-Owned Small Business (WOSB)	5%	\$xxM

As task orders are awarded, IEC will update and present a summary of the cumulative and task order specific Small Business goals as part of Attachment 1 – Summary of Small Business Goals.

Small Business Goal Methodology

4. **(Refer to FAR 52.219-9(d)(4)).** The following method was used to develop the subcontracting goals listed in 1:
 - IEC will conduct all major subcontracting on this project, committing to afford small business concerns with the maximum extent practical opportunity to participate in Task Orders over the life of the contract. Our methodology is first based on DOE's suggested goals that are stated in the solicitation, and secondly, on our IEC parent companies' experience and historical performance on our federal projects, including DOE contracts. The goals developed are challenging yet realistic. Due to the fact that this is an indefinite delivery order contract in which the specific PWS will be outlined in subsequently issued delivery/task orders, the review for additional subcontracting opportunities will be ongoing. The subcontract requirements will be redefined if it is in the Government's best interest to increase or decrease the scope or capacity of this contract. Our subcontracting approach emphasizes the utilization and integration of our team subcontractors (all small businesses) for the delivery of PWS requirements. We will commit to award subcontracts to small, veteran-owned small, service-disabled veteran-owned small, HUBZone small, small disadvantaged and women-owned small business concerns if the contract provides subcontracting opportunities and technically qualified, reasonably priced small, veteran-owned small, service-disabled veteran-owned small, HUBZone small, small disadvantaged and women-owned small business concerns are available.

Identifying Potential Sources

5. **(Refer to FAR 52.219-9(d)(5)).** IEC uses numerous methods to identify small business concerns prior to subcontracting with large business concerns. The following list is in priority order by the methods used to locate small business concerns. In the event we are unsuccessful in identifying sources from our web-based database, we use each subsequent step, or concurrent multiple steps, until we obtain a sufficient number of qualified small business concerns. IEC's capabilities to identify qualified, local, high-performing small businesses are enhanced through the inclusion of NWP as a minority LLC member. NWP has been an active member of the Idaho Falls small business community for more than 27 years, having performed more than \$680M in work at Idaho National Laboratory (INL). NWP currently subcontracts with 64 small business entities at INL and brings comprehensive knowledge of potential small business sources to IEC.
 - i. Existing company source lists (including IEC Majority Partner parent company Jacobs' supplier management system and NWP's list of current and former area SB subcontractors)
 - ii. Post-award IEC small business protégé firms and existing and former Jacobs' small business protégé firms
 - iii. Checking the SBA's Dynamic Small Business Search (DSBS) and General Service Administration's SAM sourcing systems
 - iv. Expanding source lists by encouraging vendors who make direct inquiries with IEC to register in the DSBS and SAM, as well as retrieving and reviewing the vendors' brochures when a DSBS and SAM search matches them to a subcontracting opportunity
 - v. Accessing the list of qualified HUBZone small business concerns maintained by the SBA
 - vi. Accessing the list of veteran-owned and service-disabled veteran-owned small business concerns maintained by the U.S. Department of Veterans Affairs
 - vii. Checking the SBA's directory of 8(a)-certified firms, and consulting the NAFEO/DOD Survey that inventories the capabilities of HBCU/MIs for sources

- viii. Establishing and maintaining contact with DOE's Small Business Liaison and the local SBA office
- ix. Making inquiries with local contacts, chambers and professional-organization members, such as the Small Business Development Center, Minority Business Development Agency, the National Contract Management Association, and Institute for Supply Management
- x. Advertising in SBA's SAM.gov, trade journals, and newspapers
- xi. Participating in local small business conferences

- 6. **(Refer to FAR 52.219-9(d)(6)).** Indirect costs were not used in establishing goals in this small business subcontracting plan.

Responding to a request for a quote does not constitute use in preparing a bid or proposal. IEC understands that the meaning of “used a small business concern in preparing the bid or proposal” applies if:
 - i. IEC identifies the small business concern as a subcontractor in the bid or proposal or associated small business subcontracting plan, to furnish certain supplies or perform a portion of the contract; or
 - ii. IEC used the small business concern’s pricing or cost information or technical expertise in preparing the bid or proposal, where there is written evidence of an intent or understanding that the small business concern will be awarded a subcontract for the related work if IEC is awarded the contract

Written Explanation(s)

Small Business Subcontracting Plan Implementation

16. IEC will perform the following functions to implement this small business subcontracting plan to the extent consistent with contract performance:
 - i. Assist small, veteran-owned small, service-disabled veteran-owned small, HUBZone small, small disadvantaged and women-owned small business concerns by arranging solicitations, time for preparation of bids, quantities, specifications, and delivery schedules so as to facilitate the participation by such concerns. IEC will make reasonable efforts to give as many small business concerns as possible an opportunity to compete over a period of time. NWP will leverage local SB knowledge and experience as an SB to ensure the local SB community has the opportunities and assistance necessary to compete for subcontracting opportunities.
 - ii. Provide adequate and timely consideration of the potentialities of small, veteran-owned small, service-disabled veteran-owned small, HUBZone small, small disadvantaged and women-owned small business concerns when deciding if IEC should perform the work or procure it from another source.
 - iii. Counsel and discuss subcontracting opportunities with representatives of small, veteran-owned small, service-disabled veteran-owned small, HUBZone small, small disadvantaged and women-owned small business concerns.
 - iv. Confirm that a subcontractor representing itself as a HUBZone small business concern is certified by the SBA as a HUBZone small business concern by accessing the SAM database or by contacting the SBA.
 - v. Provide notice to subcontractors concerning penalties and remedies for misrepresentations of business status as a small, veteran-owned small, HUBZone small, small disadvantaged or women-owned small business concern for the purpose of obtaining a subcontract that is to be included as part or all of a goal contained in this small business subcontracting plan.
 - vi. For all competitive subcontracts over the simplified acquisition threshold in which a small business concern received a small business preference, upon determination of the successful subcontract offeror, IEC will inform each unsuccessful small business subcontract offeror in writing of the name and location of the apparent successful offeror prior to award of the subcontract.
